

"Computers for Rural People" from The Arthur Rank Centre

http://www.arthurrankcentre.org.uk/projects/computers_for_rural_people/

If you live in a rural area, whether on a farm miles from anywhere, or even in a country town, you have to spend travelling about to get things done. That is in addition to commuting of course.

Email and Internet provide enormous opportunities when you can't just pop round the corner to the shop or library etc.

Yet computers are usually expensive items, and few people want to buy one "just to see if one day it might be useful".

Once you have one and know how to use it, and appreciate what it can do, you don't mind paying.

But that first step is often inhibited by the cost.

The Arthur Rank Centre is committed to supporting the rural community, and has set up the "Computers for Rural People" scheme to provide computers at very low cost to encourage people to take the first step.

So

- If you are retired or approaching retirement, and have seen how your own computer could enrich your life
- If you are a really busy person, and find that organising things by telephone and letter are just too slow
- If you have children at school, and want them to be able to keep up with their work

We can help you. At a really low price we can provide a computer of your own, pre-loaded with Microsoft software, and delivered to your door, to get you started.

The Arthur Rank Centre has made an arrangement with the global charity Oasis, to supply re-furbished computers at charity prices. We ask that you make a voluntary donation of £12 minimum to the Arthur Rank Centre to cover costs and help our charitable work

Get in touch to see if we can supply what you need at a price you can easily afford.

If you already have access to a Computer and the Internet, you can order directly from the Oasis Website; go to:-

The main content area features a 'Purchase at charity rate' section with introductory text and two numbered notes. Below this is a featured computer offer starting from £109, including Windows XP, Office 2003, 1GB memory, and a 3-month warranty. Three options are presented in a grid:
